

## **W A N T E D: Loving fosterparents for Li**

**Name:** Li

**Gender:** male

**Age:** 2-3 months

**Health record:** in very good health now; vaccinated by Dr. Becks and Stone; not neutered yet

**Character:** Very active and playful; very curious; very trustful and very cuddly

**Prehistory / background:** I found Li in Xujiahupark on 30 April. He was abused by a man in front of my eyes – the man spun him around, threw him in the air, pulled his ears. I could not let this happen and took Li home. He was scared, weak and malnourished; both of his eyes and ears very heavily infected.

**Life of Li now:** He is happy, healthy, dearly-loved and the king of my apartment. He is a house

cat and is going to be „exported“ to Germany as soon as possible – we need to process the FAVN-test first which takes forever.

### **Requirements fosterparents:**

- available from 13 June until end of September (+/- 1-2 weeks)
- cat-experienced
- patient, trustful and loving
- another cat/dog for socializing (best case)
- no kids (or only gentle ones)
- willing to give me regular feedback (via mail, WeChat)
- keep Li inside the house only
- willing to meet in person first before any arrangement is made
